# COURSE OBJECTIVES

## Honors American Cultures I

Total Objectives: 8

Course Objective #	Cognitive Level	Course Objective	Month
		<b>The student will</b>	
217-01		The student will explain why England was interested in exploring and colonizing the Americas. The student will describe various colonies and their relationships with the Native Americans as well as economic development. The student will also summarize French exploration and colonization and explain the impact it had on the English colonies.	
217-02		The student will explain how England's past policies affected colonial development, as well as, list the differences from colony to colony in that development. The student will also analyze the impact of British westward migration.	
217-03		The student will describe the background issues leading into the American Revolution. The student will give explanations of the social, economic and cultural impacts of the changes in British policies after 1763. The student will also identify key documents behind the revolution and describe the importance of its events and outcomes.	
217-04		The student will describe the early government of the United States and its effects. The student will also describe the building of a new constitution and the divisions it created as well as the principles and ideas that shaped Pennsylvania's government, rights listed for the people in Pennsylvania, basic documents of Pennsylvania and Pennsylvania court decisions.	
217-05		The student will describe the debate over the proper role of government and its effect on the United States. The student will also explain the political divisions and their influences, as well as, explain the causes and results of the War of 1812.	
217-06		The student will identify and describe the differences between the North and South and the policies rooted to bring the country into a civil war and their effects.	
217-07		The student will explain the battles of the Civil War and describe the significant events that shaped our nation. The student will also describe the differences between the Union and Confederate governments with the hardships that made each side struggle.	
217-08		The student will describe the conditions of the North and South at the end of the Civil War and compare the differences of the reconstruction plans between Abraham Lincoln and Andrew Johnson.
